Mysore State - Bellary District Frontier Bouncary (Nagasamudram village - Micheri village)

Sir,

I am directed to refer to your letter No Pol 1941/L S.70-41-7, dated the 10th March 1944, and to forward a copy of letter from the Government of Madras, No Ms 160, dated the 26th January 1945, with enclosure in original.

I have the honour to be,
Sir,
Your most obedient servant

SECRETARY TO THE RESIDENT

Letter from the Secretary to the Government of Madras Revenue Department, No Ms 160, dated the 26th January 1945

Survey - Frontier bouncary - Bellary district and Mysore State - Micheri and Nagasamudram villages - Principle of Median line - Application

Your letter No R F 231-42/Pol, dated 30-3-44

I am directed to send herewith a topo sketch of S No 142 of Micheri village in Bellary district showing the exact position of the cart tract in the field. The cart track is about 10 to 15 feet wide and its course is almost in the middle of the field. As shown in the sketch the cart track runs in S No 146 to the south of S No 144 which is also a poramboke and then runs through S No 147 which is land in a holdr. The cart track does not therefore form the bouncary line between the territories of the two Governments of Madras and Mysore.

2. It would appear that the cart-track now existing in S No 142 of Micheri village is not the original cart track which the Mysore Government claims as the bouncary. The actual bouncary is covered with thick aloe fencing which is encroaching on the existing cart track. It seems more than probable that the cart track is being pushed further and further to the east by the spread of the aloe fencing. Such a shifting bouncary is not a possible bouncary between two States.

3. Under the International law where a natural stream or non-navigable river forms the bouncary between two States, the territory of each State should be deemed to extend up to

the middle of the stream or river This principle can have no application where a cart track or road, which is an artificial creation is shown as the boundary there is no legal presumption at all that the territory of each State will extend up to the middle line of the cart track or road From a practical point of view it will be extremely inconvenient to have the middle line of a cart track as a boundary For example, it would not be possible for either Government to deal with a cart containing silk being smuggled from Mysore or a cart containing food stuffs being smuggled from Madras It is desirable therefore that all stretches of road should be definitely in one territory or other In fact the Mysore Government do not claim the cart track as the boundary of S No 141 of the British village which lies to the north of S No 142 and of S No 146 which lies to the south of S No 142 There is no convenience or advantage in making the cart track the boundary even if it were in its original position which is improbable In the circumstances this Government do not desire to make any further changes in the records and hope that the Mysore Government will appreciate the point of view of this Government

Sir,

With refce to your no note no See 89 Dy 16 5 194. on the above subject I am directed to observe that the Madras Govt specifically say that the Cart track runs almost in the middle of the fields and does not form the boundary line between the territories of the two Governments of Madras and Mysore As this aspect of the question has not been verified I am to request that the Dist Survey Officer concerned may be instructed to make a personal Inspection of the Spot and submit a report to Govt through You with full details and Sketches, if necessary.
